

GET A JOB!

Get a job, get a job, got to get to work!
All this talk of butterflies, don't be a twerp!

Get a job, get a job, go for equal pay
If all my friends could see you WHAT would they say?

Get a job, (get a job) get a job, (get a job) get a job!

Get a job, get a job, join the human race
All this talk of flying, what a disgrace !

Get a job, get a job, come and lend a hand
Come and join the enterprise, salute to the command !

Get a job, (get a job) get a job, (get a job) get a job!

Get a job, get a job, where does your future lie?
Hanging with your silly friends pretending to fly??

Get a job, get a job, don't be such a freak!
I'll peruse your resume by the end of the week !

Get a job, (get a job) get a job, (get a job) get a job!

You've got to get into extra curricular activity
Don't just lie there, you've got to take the opportunity

Don't just wither your precious life away
Don't wait `til you're crabby, old and grey

And most importantly dear, don't be a wet mop!

Get a job!!
