

SHUT THE WORLD

Shut the world out of my eyes
I don't want another cold and dull surprise
Shut the world out of this day
I just want to go someplace and live another way
Shut the world out of my eyes

Close the window, turn the light
You can't make me face another fight

Shut the world out of my eyes
I don't want to look at something dark
And deep inside
Shut the world out of my eyes

And I can see all the beauty surrounding me
But I still feel all the sadness inside here
Yea, I can see all the beauty surrounding me
But I still feel all the sadness inside here
`Cos I want to go to a place I belong
I want to go to be with

Butterflies, butterflies, butterflies, butterflies

Yes, I can see all the beauty surrounding me
But I still feel all the sadness inside here
Yea, I can see all the beauty surrounding me
But I still feel all the sadness inside here
`Cos I want to go to a place I belong
I want to go to be with

Butterflies, butterflies, butterflies, butterflies
